A value investment in to the future

Property values have been increasing steadily in Belize for the last ten years. Recent publicity in television programs and travel specials have put the spotlight on this small and unique part of the world. With its growing popularity and its close proximity to the United States and new direct flights to Europe, Ambergris Caye is an excellent investment choice.

The area

This is beachfront property located approximately ten miles north of the San Pedro River. The area is known as Habaneros. Easy access by Golf cart and by Boat in just 20 minutes from [San Pedro Town](#).

The whole island is presently undergoing a development boom. Many condominium projects are under construction and many more are in the planning stage.

Great opportunities exist for development of lucrative enterprises such as casinos, golf courses, etc. Likewise, there are unlimited opportunities for building and development on a smaller scale.

Ambergris Caye is the main tourist destination in Belize and is considered by many to be the best investment location in the country.

Ambergris Caye is also the most developed part of Belize due largely to international investment, a large year round population of Americans, Canadians, Europeans and Belizeans, as well as the islands dedication to remaining a top travel destination for years to come.
